Sweet 185

## Staff Pick

Sweet 185 relocated from their small St. Philip Street location to roomier digs on King Street last summer. The organic spa now features a boutique in the front, with several nicely decorated privacy rooms in the back for services like massages, skin therapy, and body sugaring. Sugaring is a natural way to remove hair, using room-temperature sugar, water, and lemon juice. It's also supposedly less painful than typical waxing. We hear Brazilians are their specialty.
