

## about us

Sweet 185 is a sugaring studio and organic boutique. Our mission to provide natural hair removal and esthetic services to clients in a beautiful, warm, nurturing environment—from eyebrows to Brazilians, facials to body treatments.

We also offer products that complement our services and philosophy such as sea sponges, all natural skin-care products and clothing made from organically grown materials.

Take advantage of our personal over-the-phone shopping service and you won't even have to stop in. Call our concierge to shop over the phone with you and pull up to the curb at 476 King Street where we will meet you out front with your beautifully wrapped packages, complete with a gift card and envelope.

Our “be kind to...” philosophy encourages all of us to be kind to our bodies, communities, the planet and to some “body” else. That is why we offer only natural therapies, locally-sourced, environmentally-friendly products and support several local charities.
